The Late Mrs. Holsten Harden.

The many old friends and acquamiances of Mrs. Holsten Harden were no doubt pained to read of her death at an early hour yesterday morning. She was one of the old people of this vicinity, coming here from Pittsburgh with her husband in the spring of 1848, at the time when the old Foint Mill was in operation. He was one of the pioner workmen who built the LaBelle Mill, and remained a member of the company until his death, and his widow's estate remained in it until her death. She was a most estimable and genial lady, who shared all the vicissitudes of her husbands life, and reared a respectable family by whom she was surrounded in her last moments. She and her husband were both natives of Chester county, Pa., removing from there to Pittsburgh in 1839, and from thence, as we have said, coming to this city at a later day. Her remains will be intered at Greenwood to-morrow.

Some changes were made yesterday in the Board of Regents of the State University at Morgantown. The law governing the institution prescribes that the Regents shall number the same as the Senatorial districts in the State, and that one shall come from each of these districts. By the reapportionment law passed last winter the Legislature created vacancies in the regencies from several of the districts by changing their geographical boundaries. Several of the regents were to be reappointed yesterday at any rate, their times having expired, and therefore the Governor Bled all the existing vacancies. For the First district he appointed W. P. Ball Briefs. Seven to five. Well, it was a good game It is not to be presumed that the Standards can beat a picked nine of two crack clubs every time. There are some impossibilities in world. According to the best judgmen of the people on the grounds the score should have been even on the last inning. But it wasn't. It was seven to five in favor of the

to blame the umpire for gross misrulings, in this case the defeat of the Standards can easily be accounted for. Barkley's put out easily be accounted for. Barkley's put out on third was a very doubtful decision, and Rowe, who scored on the eighth liming was fairly out on Brst. These decisions would have made the score even. But its not our province to kick. The Neshannocks beat the Standard with the partial aid of an ampire, a gentleman who played in Tuesday's gaure, and who, perhaps, was interested in the result of the contest. It is useless to deny, however, that the Standard's played a yery meditore game compared with the prevery includer game compared with the pre-vious day's performance, while the "red-legs," with the assistance of some Crockery City recruits, showed up to much better ad-vantage. It was expected that they would. They did not disappoint the people, and those who stayed away missed a very fine game.

The Standards can well afford to rest on the laurels they have won, and have no reason whatever to feel asianned of yesterday's contest. It was spirited, hot and entertaining, and well repaid the four orfue hundred people who witnessed it and had no money on the zeath. Something will drop yet. There are more games to play,

Malaria is an almost in-
